

# CULLIGAN® Aquasential™ Tankless RO

## Product Features

- Modern, space-saving design
- High capacity 600 gpd membrane provides a fast flow rate of 0.42 gpm
- Built-in booster pump – low-noise, low-maintenance, high performing and compact
- Built in leak alarm with auto water shut-off
- Built in cleaning feature to extend life of product
- Smart system provides feedback on water quality and filter cartridge life on system and faucet

### Designer Faucet

Our high-end, designer faucets with advanced display will match any kitchen and keep you in control of your water quality. The water drop on the center of the display denotes the water quality and the circle edges indicate the filter.

### Filtration Options

**RO Membrane** 600 gpd high capacity membrane to reduce total dissolved solids by 95%

**CF Cartridge** Composite filter for filtering out particulate materials such as dirt, sand, and rust as well as reducing bad taste and odor.

**CB Cartridge** Carbon Block filter for reducing any remaining bad taste and odor.

Advanced Drinking Water System

**EXPERIENCE THE DIFFERENCE** CULLIGAN WATER CAN MAKE.

## PRODUCT BENEFITS

- Modern, Space Saving Design
- Continuous Flow - No Storage Tank Required!
- System Performance Indicators
- Leak Detection with Auto Shut-Off
- Automatic Self-Cleaning Feature

*Culligan Water*

## Redefining Reverse Osmosis Filtration

The Aquasential Tankless reverse osmosis system offers on demand, high quality filtration with the most advanced technology on the market, including water quality and filter cartridge life monitoring, leak detection, automatic cleaning, and a space saving design. The system's advanced features perfectly complement its modern, high-end industrial design delivering quality water in an ultra-premium package.

Traditional reverse osmosis systems are an excellent solution for most consumers. However, they do have their limitations, one being the need for a storage tank to provide on demand, filtered water. With the Aquasential Tankless, no storage tank is required! The system utilizes a booster pump and high capacity 600 gpd membrane to provide an unlimited supply of great tasting, filtered water whenever you need it!

Trust Culligan's more than 80 years of experience in the water treatment industry to deliver the highest quality products, installation and service.
